

# SONIA TOUKKARI

## FREELANCER

I am an excellent resource for your project. I enjoy collaborating with others to bring your project to life. Above all, I'm passionate about using my skills to solve problems and create innovative solutions that make a difference.

I am interested in automation, devops and app usability, plus I enjoy working with senior developers, who help me improve everyday

### OTHER HOBBIES

swimming, cycling, running, triathlon

### LANGUAGES

Spanish (native), English (professional), Finnish (intermediate)

### WORK EXPERIENCE

#### Front-end Developer and Quality Control Specialist

May 2020 - Present

#### SuperApp Oy - Helsinki Finland

My main responsibilities at SuperApp are:

##### Frontend developer

I build user interface features and style app components using CSS and framework 7. Some of the components I implement are: forms, cards, grids, texts, buttons, images, navigation, list items, side panels.

##### Software quality Assurance Tester

Commended for attention to detail in user experience and visual. I communicate with developers to diagnose issues and recommend resolutions. My strategy is to explore software on my own and identify unique defects and problems rather than repeatedly executing automated tests that check a limited path of execution.

##### UX designer

I don't want to help creating a functional a fubut also ensure that it's intuitive, visually appealing, and user-friendly. Therefore, I create prototypes about how the product will look like. My aim is to use visual cues to help guide a user through the interface.

### EDUCATION

Msc Culture, Communications and Globalisation

Aalborg University

2015-2017 ERASMUS MUNDUS SCHOLARSHIP AWARD
